Unblock the Web Securely With ExpressVPN

Access websites and services securely with ExpressVPN. With servers in over 87 countries, there’s bound to be a server to fit your needs. With ExpressVPN, you can access:

- Netflix
- Spotify
- Facebook
- BBC iPlayer
- Youtube
- Twitter
- Seeso
- Wikipedia
- Google
- Amazon Instant
- Video
- HBO Go
- CBC
- NBC
- ... and more!

Other VPN services use third party DNS, leaving their users’ traffic open to censorship, manipulation, and “man-in-the-middle” attacks. ExpressVPN runs its own DNS on every server, meaning your DNS requests are protected with strong encryption and never logged.

Fast speeds, high security
Unlimited bandwidth, unlimited server switches (unlike our competitors), 99.9% uptime.

Round the clock support
Our support staff are friendly, prompt, and helpful, providing round-the-clock help by email or chat.

Apps for Windows, Mac, Android, iOS, Routers, and Linux
One-click install available for all your devices. No tech skills required, we promise.
